FILE NO. 5007

Question:

In the invitation to bid Metal Windows 084113 is listed as the filed sub-bid. Please confirm Metal Windows 084113 is the proper section for my sub-bid. In the specs 084113 is listed as being Aluminum-Framed Entrances and Storefronts.

Answer:

Section 084113 is Aluminum Framed Entrances and Storefronts not Metal Windows as indicated in the advertisement. This does not change the nature of the work. Glass storefront is still being replaced.

All other particulars remain unchanged.
